

EPA APPROVED TO KILL COVID-19!

We are excited to be able to share with you a new service we are offering! Using the SC Multi-Sprayer, we are able to disinfect your entire facility quickly and safely.

The SC multi-Sprayer is tough, compact and versatile cordless sprayer. The Decon30 is added to the jug which is then sprayed as a light mist over all horizontal and vertical surfaces. Decon30 is a new innovative one step disinfectant cleaner that kills 99.99% of Bacteria in 30 seconds. Typical disinfectants require 10 minutes contact time, which is difficult to achieve on vertical surfaces and materials. New Decon30 solves this problem by being specially formulated to kill gram-negative and gram-positive bacteria with a more realistic contact time of just 30 seconds! In addition to being bactericidal against Staphylococcus aureus (Staph), Salmonella enterica, Pseudomonas aeruginosa & Escherichia coli (E-coli), it is also virucidal against Rhinovirus (the common cold) and influenza A including the Pandemic 2009 H1N1 on hard, non-porous, inanimate surfaces...and much more coming soon!

If you are interested in learning more about this service please call us at 239-451-0785 or email us at sleamon@trinitycleans.com.
